At this season nearly every one needs to use some sort of tonic. IRON enters into almost every physician's prescription for those who need building up.

**BROWN'S IRON BITTERS**  
—THE BEST TONIC—  
For Weakness, Lassitude, Lack of Energy, etc. It HAS NO EQUAL, and is the only iron medicine that is not injurious. BINKLEY, a leading physician of Springfield, Ohio, says: "Brown's Iron Bitters is a thoroughly good medicine. I use it in my practice, and find its action exceeds all other forms of iron. In weakness, or a low condition of the system, Brown's Iron Bitters is usually a positive necessity. It is all that is claimed for it." Dr. W. N. WATERS, 1219 Third-second Street, Cincinnati, O., says: "Brown's Iron Bitters is the tonic of the age. Nothing better. It creates appetite, gives strength and improves digestion." ## WASHINGTON DISPATCHES

THE EFFECT OF THE GOVERNMENT BUYING BONDS.

United States Treasurer Hyatt's Explanation of the Matter—Dakota's Desperate Fight for Admission Into the Union. The Grand Army Encampment.

WASHINGTON, Sept. 13.—The purchase of bonds by the treasury department has been a curious experience in at least one particular. There was a general belief that the moment the government went into the field to purchase bonds before they were due there would be a general rise in the value of such bonds. But the reverse has been the fact. Instead of putting the price of bonds up it has lowered it materially.

JAMES W. HYATT.

When the department began buying the 4-1/2 per cent. bonds they were worth about 111 or 112 in the market. Now they are down to 108. Curious, isn't it, but it shows how difficult it is to tell in advance what the effect of a peculiar movement of this sort will be. I asked Treasurer Hyatt what he thought was the cause of this extraordinary freak of the market.

"I think," he said, "that it is due to the fact that there has been since the sale was begun a pretty brisk demand for money in the markets. The result has been that the holders of the bonds saw that they would make good use of their money in other directions, and as they knew of course that they would have to give up their bonds at par in four years they thought it better to sell them now at a reasonable premium."

"Do you think the prices would remain as low as they now are if the department should continue to buy the bonds for any length of time?"

"I presume they would go even lower. I can only surmise, but if there is any demand for the money which is invested in these bonds, and I presume there will be, I think the prices will go lower than now."

Dakota's Fight for Admission.

WASHINGTON, Sept. 13.—Word comes from Dakota that the people there intend to make a last and desperate fight before congress this session. They claim that no territory was ever quite so badly treated under similar circumstances. Michigan was kept out over thirty years after the question of sisterhood was "sprung" upon congress, by her ambitious citizens, while Dakota has only been knocking for sixteen years. But Michigan had no such population as Dakota has. In fact, no territory was ever admitted with over 135,000 population, while Dakota has, it is claimed, 600,000 population. To represent those 600,000 people in congress, they have one man who has no vote. Think of this in comparison with the condition of Rhode Island, which is about as big as a good county of Dakota, and has about one-fourth of the population of that territory, yet its people has two members in the house and two in the senate to represent them, and with power to vote, while Dakota's one representative is powerless to cast even a single vote in behalf of his people. It is easy to see that the fight is going to be hotter in the next session than ever before.

The Grand Army.

WASHINGTON, Sept. 13.—Large numbers of the members of the Grand Army of the Republic are preparing to leave for St. Louis shortly, to attend the national encampment. They expect that this winter will find the Grand Army with over 300,000 members, perhaps as many as 325,000. The organization celebrates its twenty-first year at this annual meeting. The first post was organized in Decatur, Ill., in April, 1867, and the first national encampment was held in Indianapolis in November of that year. The second encampment was held in Philadelphia in 1868, the third at Cincinnati, the fourth at Washington, the fifth at Boston, the sixth at Cleveland, the seventh at New Haven, the eighth at Harrisburg, the ninth at Chicago, the tenth at Philadelphia, the eleventh at Providence, the twelfth at Springfield, Mass., the thirteenth at Albany, the fourteenth at Dayton, the fifteenth at Indianapolis, the sixteenth at Baltimore, the seventeenth at Denver, the eighteenth at Minneapolis, the nineteenth at Portland, and the twentieth, last year, at San Francisco.

MURDER IN A COTTON FIELD.

The Overseer of a Plantation Blows a Colored Pickers' Head Off.

BARNESVILLE, Ga., Sept. 13.—The particulars of the murder of Lewis Woods, a colored man, in Crawford county, by James Chancellor, shows it to have been shocking and unprovoked. Woods was a regular hand for wages on Mr. Bassett's plantation, while his wife was hired by the piece when her work was needed, the usual custom among farmers. Mr. Bassett kept the two classes of pickers apart, so that husbands working on time could not have a chance to help their wives, who were picking by the pound.

During the day Woods and his wife came together picking in parallel furrows, when Chancellor, the white overseer, came up and ordered them to move apart. To this Woods offered some objection, saying that the spot designated was snaky. Chancellor and his brother then drew their knives and advanced upon Woods, when the latter seized a fence rail for defense. Chancellor went to his house, a half mile distant, and got his shotgun. Walking up to Woods, who was at work and had not noticed his coming, Chancellor put the muzzle to Woods' temple, and saying, "Now come on with your fence rail," pulled the trigger and fired, almost blowing Woods' head off entirely. The coroner's jury has rendered a verdict that the killing was murder in the first degree. Chancellor is hidden out by his friends.

Plymouth Church Reopened.

New York, Sept. 13.—Plymouth church in Brooklyn was reopened Sunday after the

summer vacation. Mrs. Beecher came from Stamford, Conn., to attend the service, and occupied the family pew alone. Rev. J. S. Willis, of Milford, Del., occupied the pulpit. Rev. Dr. White, of Summit, N. J., will occupy the pulpit next Sunday, and Dr. Parker, of London, the first week in October. A member of the church committee said no action had yet been taken regarding the selection of Mr. Beecher's successor. He doubted if the position would be offered Dr. Parker, or if he would accept it if offered him.

RECEIVER ASKED FOR THE C., H. & D.

A Stockholder's Charges Misappropriation of Funds and Mismanagement.

CINCINNATI, Sept. 13.—George K. Duckworth, owner of 250 shares of Cincinnati, Hamilton & Dayton railroad common stock, filed a petition in Hamilton, O., last Saturday, asking for the appointment of a receiver for the road. The petition states that in January, 1887, the Cincinnati, Hamilton & Dayton stockholders authorized an issue of \$2,000,000 of bonds, secured by mortgage, and in June, 1887, voted to issue \$500,000 more bonds to purchase equipment for the road; that in September, 1887, they authorized the issue of \$10,000,000 preferred stock, afterwards devoted to general purposes, the president and vice president of the road having power to sell all of said bonds and stock. That after June 20, 1886, all the road's earnings being sent to H. S. Ives & Co., New York, the said H. S. Ives and George H. Stayner used said proceeds and moneys for their own purposes and not for the benefit of the road, and that they sold the \$2,500,000 of bonds and over \$4,500,000 of the \$10,000,000 preferred stock, and used the proceeds for their own ends. The petition recites facts showing the increase of the bonded and floating debt of the company and the purchase of the Terre Haute & Indianapolis road. It further states that the annual salary of C. C. Waite, as second vice president and general manager, has been increased since June, 1886, from \$6,000 to \$25,000; that the board of directors has mismanaged the road; that the corporation is on the verge of insolvency, and will be obliged to discontinue business unless it is taken out of the hands of the present management; and that it is necessary that a receiver be appointed.

The writ is returnable next Wednesday.

Vice President Waite says that the suit will be resisted, as there are no grounds for the appointment of a receiver, the company having defaulted in nothing. The men who were making the trouble are no longer directors of the C., H. & D., and the suit is merely a scheme to break down the stock for the benefit of purchasers.

Attorney Ramsey's Opinion.

NEW YORK, Sept. 13.—Judge William M. Ramsey, counsel for the Cincinnati, Hamilton & Dayton Railroad company, was called upon by a United Press reporter to-day in regard to the application for a receiver of the road filed by George F. Duckworth at Hamilton, O. Mr. Ramsey said he thought the suit very unwise, and much against the interest of the stockholders and creditors who hold C., H. & D. stock as collateral. The proceedings will undoubtedly fail, as there are no grounds to base them on.

Fraud on an American Ship-Owner.

MOBILE, Ala., Sept. 13.—The schooner Ellis Curtis, flying the British flag, was seized Saturday at Scranton, Miss., under a libel by Z. E. Layton, of Baltimore, who claims to be her owner. He states that the schooner was condemned and sold at Bluefields, Nicaragua, in November, 1885, by collusion between the captain and the American consul at Bluefields. He heard of the vessel in August last as having sailed from Grand Cayman for Mobile with fruit. Having seized the vessel, he finds no damage whatever to the hull, and no signs that the vessel was ever in such a condition as to authorize her condemnation. She has an American register and tonnage. Layton says he has been defrauded of several thousands heretofore in the same way, only a portion of which is represented by the vessel now in the United States marshal's possession.

Great Damage By Floods.

TUCSON, Ariz., Sept. 13.—Over twenty miles of the Southern Pacific railway between Tucson and Benson have been swept away by a flood. Full details of the disaster are not known, but officials of the road declare that it will stop traffic over the southern route for at least two weeks.

ASHLAND, Ky., Sept. 13.—Thomas Colley, night engineer of the Morton iron works blast engines, was scalded early this morning by an exploding copper steam pipe. He saved his life by jumping through a window, being cut and bruised in his exit.

Fatally Cut.

NELSONVILLE, O., Sept. 13.—Wilson Conlener, a coal hauler, was frightfully cut on the street here last night by Frank Mosher sustaining, it is feared, fatal injuries. Conlener has a deep cut in the neck, also a long cut on the head that almost scalped him.

## NEWS OF THE OLD WORLD

IMPORTANT RUSSIAN ARTICLE ON THE LABOR AGITATION.

The Land Question the Principal Factor in the Great Labor Movement Throughout the World—Editor O'Brien Arrested at Kingstown—Fifty Lives Lost.

LONDON, Sept. 13.—A translation from the Russian of an important article supposed to be from the pen of the famous Stepiak on labor agitation has just been published here. It takes a unique view of the labor movement throughout the world. The writer claims that in nearly every country where discontent is rife among the masses less attention is being paid to the wages question than formerly, and more inquiry is being made in regard to the relation of the people to the land. The land question, in fact, is now "the constant factor" in the labor agitation of the world, whatever local variation there may be as to additional demands.

The Nihilists in their original platform make the restoration of the old Slavonic system of community in land a leading demand. They left it in obedience for a time but are now vigorously rushing it to the front again and the writer declares that much of the apparent quiescence of Nihilism lately is explained by the fact that the active members of the party are devoting their energies chiefly to arousing in the masses a determination to strike a blow at the proper time for the restoration of the mir, and the abolition of the onerous tax imposed upon the village communities by and since the emancipation ukase of Alexander III, in 1861. The leaders have become convinced that to slay a czar now and then will do no good unless the people are educated up to a capacity of local self-government such as the mir formerly represented. They are therefore postponing czar killing till a more enlightened season. They regard the existing mir as in no sense representative of what was formerly so-called.

The writer alleges that among the German Socialists the theory that much distress is due to the fact that the people's rights in the land have been usurped is assuming importance. The action of the trades congress a few days ago in demanding a tax on land which would finally result in the people owning it, seems to justify the author's statement of the growth of this idea. He alludes to the prominence of the land question in Ireland and to the agrarian agitation among the Crofters of the Scottish Isles, but singularly enough does not give these the importance which he ascribes to the Russian and German movements above referred to. He says the Irish movement is not toward community of land ownership, and is therefore not a revival, but a new idea with historic sanction. He attributes great importance to the movement in America. The great fault of previous schemes of common land ownership, he says, is availed by the system of taxation up to rental value proposed by the American agitators. It is practically the same plan advocated by the English thinker, Herbert Spencer, and is probably the only point the great Conservative philosopher is in agreement with the social reformers of the Democratic school.

The King of Holland Dying.

BRUSSELS, Sept. 13.—The death of the king of Holland is expected now at almost any time. His recovery is given up by his physicians. The heir to the throne is Princess Wilhelmine Heleye, only seven years old. To have the right to wear the crown, the princess, when she arrives at maturity, must marry a person approved by the Dutch states general. During her minority Queen Emma will govern, with the assistance of a council of regents. According to the Salic law the princess as heir to the throne of Holland will have to give up any claim to the grand ducal throne of Luxembourg to the prince of Nassau next in line of succession to her. Any dispute as to the title to Luxembourg might give a distinct opportunity to annex this lower country to Germany, at least this is feared in Holland, and threats have been made to destroy the dikes if there should be any attempt to dismember Holland by aggression.

Editor O'Brien Arrested.

DUBLIN, Sept. 13.—William O'Brien was arrested yesterday at Kingstown while on a vessel bidding farewell to Mr. Labouchere. The officers informed him that he would not be taken into custody if he would promise not to go to England, it being supposed it was with that intention he was aboard the boat. O'Brien refused to promise, and he was taken in charge and to Dublin to a hotel. He was informed that he could remain there all night if he would not make a speech. He again refused, and later made a speech, but was allowed to remain at the hotel. He was taken to Mitchelstown to-day by officers. He was accompanied by Mr. Harrington, who will act as his counsel. Mr. O'Brien denies most emphatically the assertion that he boarded the steamer with the intention of going to England to avoid arrest.

The Ex-Empress and the Queen.

LONDON, Sept. 13.—Ex-Empress Eugenie, who has been visiting the queen during the week, is on very intimate terms with England's sovereign. The two ladies have a common sympathy in their love for funerals and their devotion to the contemplation of melancholic mortuary subjects. The ex-empress is to have a tremendous funeral ceremony over the remains of her husband and son, which have, during the last week, been safely conveyed from Chislehurst to their new burial place. A new sarcophagus for the remains of the prince imperial has just been brought from Aberdeen by sea to Farnborough. It is understood that the queen will attend the Farnborough ceremony.

The latter, it is claimed, has gone beyond all limit in instructing the foreman how brews shall be made, in dictating whose malt shall be bought, and demands of a similar nature. The boss brewers still think they know how to run their business.

W. Eaton. Mr. Wilson reports, the "colony" of Maysville and Mason County boys in Kansas City all doing well.

ELDER J. W. MCGARVEY, of Lexington, declines to receive any aid by contributions of money for the rebuilding of his residence which was recently burnt. He expresses his thanks, says the Transcript, for the offers extended, but prefers to bear the burden of the loss himself, and makes the noble suggestion that charity should go to those who are in distress.

JOSEPH SCHWEITZER and Miss Pauline Federer, of Augusta, were married yesterday morning in the Catholic Church, at that place, by Rev. Father Briefankamp. Attendents: Andrew Riedy and Miss Susie Sieler, of Covington. THE J. H. Hillman has taken the place of the St. Lawrence in the trade between this city and Cincinnati. The Hillman is a Cumberland river packet, and is the lightest draught boat Commodore Holloway could find.

THE High Bridge near Georgetown, O., on the Cincinnati, Georgetown and Portsmouth Railroad, came near being the scene of a bad accident last Saturday morning. A tree had fallen across the track, and the obstruction was discovered in the nick of time.

CAPTAIN TONY MELDAHL, the handsome young pilot of the Cincinnati and Pittsburgh packet Fashion, was a passenger up from the Queen City yesterday on the Maysville packet, taking a look at the river while at a low water stage, and locating the big anags. He proceeded on his way to Manchester last evening by the Katie Prather, and will continue his journey on to Parkersburg.

THE following officers were chosen for the ensuing year at the election held last night by Maysville Chapter No. 9, R. A. M.: H. P.—H. Porter Melville. K.—John Heiser. S.—R. L. Brownling. C. H.—Geo. W. Rogers. P. S.—Louis Rorer. R. A. C.—Wm. C. Miner. Gr. M. 3rd V.—Wm. P. Coons. Gr. M. 2nd V.—John C. Lovel. Gr. M. 1st V.—James H. Sallee. Treasurer.—S. S. Riley. Secretary.—James K. Lloyd. Guard.—E. A. Robinson.

THE water in the river is getting very "thin," and only the lightest draught boats succeed in working their way over the sand-bars. The J. H. Hillman, in place of the St. Lawrence, arrived yesterday afternoon at half-past four o'clock—twenty hours and thirty minutes out from the Queen City. That was good time, however, as the boat pulled a big barge of freight all the way up to Augusta. The report that the delay was caused by the dust blowing in the eyes of Captain Watt Shedd and Pilot Peter Holloway is not true.

A. A. LANG, who lives at Dover, was seriously hurt a day or so ago. He was engaged in tearing down an old barn at a point between that place and Augusta, and was about twenty-five feet from the ground, helping tear the roof away, when the beam he was working with broke, causing him to lose his balance. He fell to the ground, striking on his head, and was unconscious when picked up. Upon examination it was discovered that his neck and jaws were badly bruised. He was removed to his home at Dover. His injuries may prove fatal.

Fast Running.

THE passenger train leaving here at noon did some fast running last Saturday. A new engineer, who usually has charge of a freight train on the main line, was on duty. He didn't mind the up-grade to Summit at all, and when he once reached the top of the hill, he pulled her wide open and sent her forward at about a mile a minute. At least some of the passengers thought so, for one was heard to remark that "the engineer must have 'filled up' before he left town." When the first tunnel was reached, the passengers were surprised to see the train dash right through. Conductor Myers and Brakeman Carr were more surprised than the passengers. Carr pulled the bell on the new man at the second tunnel, but the speed was slackened but little. Once through, Myers stopped the train and, going forward, gave the fellow some orders about running through tunnels at that rate. This cooled things down a little and the other tunnel, near Carlisle, was run at ordinary speed. At Millersburg, the train was way ahead of time, and there was a wait of several minutes, probably to keep from surprising the fellows at Paris. Captain Myers spent part of the time at Millersburg in finding out what sort of a watch the new engineer was running by.

## POWDERLY NOT TO RESIGN

THE LATEST STORY ABOUT HIM  
LIKE THE OTHER ONES.

What He Will Advocate in His Next Annual Message—Four Thousand Pennsylvania Miners Strike for a General Advance in Wages—Labor Troubles.

SCRANTON, Pa., Sept. 13.—General Master Workman Powderly, in an interview, said his next annual message will advocate government ownership of telegraph and railroad lines and the establishment of a postal savings bank. Bills will be prepared by him to carry these suggestions into effect, and they will be submitted to the general assembly for its approval. Should the assembly approve these measures, they will be introduced in congress and backed by the full strength of the Knights of Labor. He added that there was a misunderstanding about his rumored resignation at the next general assembly of the order to be held in Minneapolis the first week in October. He said it probably arose from a statement which he made in Omaha and Boston some time ago to the effect that he was now serving his last term as chief of the organization. As he was elected for two years at Richmond, he has a year yet to serve, but he added that he is ready at any time to make way for his successor should the order see fit to elect one.

### Four Thousand Men Out.

SHAMOKIN, Pa., Sept. 13.—The miners of the collieries of the Mineral, Mining and Railroad company, the Union Coal company, the Excelsior Coal company, the Enterprise Coal company and the Garfield Coal company, struck this morning for a general advance. It is estimated that four thousand men are out on strike at Shamokin. The miners are thoroughly organized as Knights of Labor, and are prepared for a long lock-out. No concessions were offered on either side.

### Machine Stitches Quit Work.

BOSTON, Sept. 13.—The McKay machine stitchers to the number of fifty left work at noon to-day, owing to a difficulty with the Knights of Labor, who settled the recent trouble at Chick's factory to the dissatisfaction of the strikers.

### Painters and Polishers Strike.

BOSTON, Sept. 13.—Three large furniture firms have conceded the nine-hour day demand by painters and polishers, but the others refuse to comply, and their men, to the number of 1,000, will quit work this afternoon.

### WILL NOT VISIT CINCINNATI.

President Cleveland's Reply to the Mayor of the Queen City.  
CINCINNATI, Sept. 13.—The following letter has been received from President Cleveland by Mayor Amor Smith:

"EXECUTIVE MANSION,  
WASHINGTON, Sept. 12.  
"Hon. Amor Smith, Jr., Mayor, Cincinnati, Ohio:

"DEAR SIR—I have received the invitation kindly tendered me on behalf of the municipal authorities, the commercial exchanges and other civic organizations of Cincinnati to visit that city during my contemplated trip to the west and south. I am in receipt of like invitations from many other localities, and I have delayed action thereupon until I could definitely determine which of them my time and positive engagements already made would permit me to accept. To my regret I now find it necessary to send to a large number of them replies similar to this.

"The trip is to be undertaken for the purpose of fulfilling my promises to visit St. Louis and Atlanta. The dates of these visits are fixed, and as both are included in a single trip, the time intervening between these dates is substantially all that can be devoted to visiting other cities. It is a physical impossibility in these circumstances to accept all the kind and cordial invitations which have been extended to me; and I have been obliged to mark out a route of travel, and select as stopping places, such cities as are on the way, or which for other controlling reasons it seems more desirable to visit at this time.

"I am sorry that this plan precludes the possibility of my acceptance of your invitation; and I trust that the good people of Cincinnati will not attribute my failure to comply with their wishes, so warmly and so heartily expressed, to any want of appreciation of their regard or to any lack of desire to be their guest. Yours very truly,  
"GROVER CLEVELAND."

Too Anxious to Entertain Cleveland.  
INDIANAPOLIS, Ind., Sept. 13.—The board of trade and the Hendricks club are having a time as to who will entertain the president while at Indianapolis. John P. Frenzel is chairman of the executive, and Joseph E. McDonald is at the head of the reception committee. The Hendricks club has also appointed a committee to take charge of the arrangements and has selected a speaker to address the president upon his arrival. Mr. Frenzel says the Hendricks club orator will not be allowed to get within forty rods of the president, and that the club will take no other part in the reception than to appear in the procession escorting the president from the depot.

On His Way to Switzerland.  
MONTREAL, Sept. 13.—The detectives who have gone to Toronto to bring Bradley McGarigle to Montreal to stand trial on a charge of conspiracy are not likely to be successful if a letter received here is genuine. It purports to be from McGarigle, and says he is on his way to Switzerland. The letter is dated Paris.

### Unknown Man Killed.

CELINA, O., Sept. 13.—The 9 o'clock north-bound express on the Cincinnati, Jackson & Mackinaw railroad last night ran over a man six miles north of here, killing him instantly. He was a young man, well dressed, but a total stranger, having no papers on his person by which to identify him.

### Starred a Colored Coachman.

NEW HAVEN, Conn., Sept. 13.—Miss Mary Tucker, a girl of nineteen, daughter of John S. Tucker, a former state representative, has married John W. Hanohett, her father's colored coachman, and disappeared. Miss Tucker was allowed as much liberty as any other girl living in the city, but her parents never dreamed of her intimacy with Hanohett. Hanohett persuaded her to color herself with a liquid prepared by himself, and which made her look like a negro. The village minister performed the ceremony, and the couple then fled. They are being pursued by the girl's father and some of his friends. Mr. Tucker threatened to shoot Hanohett on sight.
